## SUMMARY

"Passionate about tech and driven by risk-taking, I'm a self-motivated individual keen on pushing boundaries. Embracing challenges, I thrive on problem-solving and boldly navigate uncharted tech territories. Eager for growth-oriented tasks, I aim to showcase my capabilities early in my career, leaving a mark in the dynamic world of technology."

### Institute of Software Enigneering (IJSE)

Graduate Diploma Software Enigneering (GDSE)  
From 1st September 2021 - present

### ESOFT Metro Campus

Diploma in Software Engineering (DISE)  
From 15th March 2020 - 2021

### Vocational Training Authority

Information and Communications  
Technology – NVQ-4  
From 1st January 2019 - 2020

### Sri Lanka Telecom Training Centre

Information and Communication Technology  
From 1st January 2018 - 2018

### G.C.E Ordinary Level Examination 2017

St. Aloysius College Galle

## EXTRA-CURRICULAR ACTIVITIES

Chess Team Captian Under 17  
swimmer inter-house meet

## HOBBY

UI Design and learn new technology  
Adventure Trip  
Programing Problem Solving and reading Book

## PROFESSIONAL EXPERIENCE

### Data Entry - RDHS OFFICE - GALLE

MOH - Unawatuna | 2020 - 2021

- Typing Letters and Handling Excel Sheet
- Modify Access and Developing VB.Net Application.
- Create Presentation and Design Poster.

### CodeCasa - Web Development Internship

Remote - 4 Week

- Four Task Completed in one month duration.

### CodeAlpha - Web Development Internship

Remote - 4 Week

- Six Task Completed in one month duration.

## FREELANCER PROJECT

### Studio Dream Catcher

2023 -2024

- Description - Catchy domain, reliable host. WordPress up, theme on. Tweak layout, plugins pop. website boom!
- Technologies Used - WordPress
- Website : <https://studiodreamcatcher.lk/>

## RELEVANT PROJECT

### Easy Car Rental

2023 - 2024

- Description - It is a Web application based on a rental system which was used to booking and manage the car stock of a specific business.
- Technologies Used - Java , Bootstrap,MySQL,Javascript SpringBoot,Hibernate, Apache Tomcat
- Repository:[https://github.com/JanithNanayakkaraSE0612/Car\\_Rental\\_System\\_Second\\_Semester\\_Final\\_Project](https://github.com/JanithNanayakkaraSE0612/Car_Rental_System_Second_Semester_Final_Project)

## TECHNICAL SKILLS

### Programming Language

- Java

### Scripting Language

- ( Javascript , Typescript )

### Frameworks

- ( Hibernate , JavaFX , CSS  
Spring Boot , Bootstrap )

### Development Tools

- ( Visual Studio Code , IntelliJ Idea  
Visual Studio, Android Studio )

### Database

- ( MYSQL Mongo DB , SQLServer )

### TechStack

- ( React , JQuery , Ajax , NodeJS  
ExpressJS , JPA , JSON , API ,  
HTML ,CSS3 , Sass , Maven , Java  
Bean ,JDBC , Java EE , ReactNative)

### Architectural Patterns

- ( Layered , MVC , Client Server )

## CERTIFICATIONS

- University of Moratuwa FullStack Development:
  - Completed FullStack Development program.
- SoloLearn:
  - Skills and Certification:
    - Focused on coding and programming languages.
    - Provides certificates of completion.
- Great Learning:
  - Skills and Certification:
    - Diverse courses in technology
- Other Platforms:
  - Explored various e-learning platforms such as Coursera, edX, GrassHoppers,Alison, LinkedIn Learning, and Pluralsight.
  - JavaScript adept from challenges on CodeChef, Montero, Codecademy, and CodeCamp, DevTown , I excel in crafting efficient solutions for diverse problems.
- HackerRank:
  - Achievements:
    - Earned Five Gold Badges on HackerRank.
    - Holds Six Verified Skills Certifications.

## Travel and Tour

2023 - 2024

- Description - It is a Web application based on a Tourism App which was used to manage the all Function of a specific business.
- Technologies Used - ReactJS , Bootstrap

## Online Food Order

2023 - 2024

- Description - It is a web application based on a Online Food order delivery app which was used to manage the payments and manage the food item all of this.
- Technologies - MangoDB, ExpressJS , Bootstrap ,React Typescript

## Social Media App

2023 - 2023

- Description - It is a Social media application based on a Facebook-clone App Create Front-end Social App.
- Technologies Used - ReactJS, Bootstrap
- Repository:[https://github.com/JanithNanayakkaraSE0612/Facebook\\_Clone\\_App](https://github.com/JanithNanayakkaraSE0612/Facebook_Clone_App)

## D24 Hostel

2023 - 2023

- Description - It is a stand-alone application based on a hostel management system which was used to manual the payments and manage the room and student of a specific business.
- Technologies Used - Java ,Hibernate, Apache Tomcat MySQL
- Repository:[https://github.com/JanithNanayakkaraSE0612/Hostel\\_Management\\_System\\_Desktop\\_App](https://github.com/JanithNanayakkaraSE0612/Hostel_Management_System_Desktop_App)

## Milk Bar System

2022 -2022

- Description - It is a stand-alone application based on a milkbar management system which was used to manage the payments and manage the stock of a specific business.
- Technologies Used - Java ,Layered ,JavaFx , MySQL
- Repository:[https://github.com/JanithNanayakkaraSE0612/Layered-Architecture-Final-Project\\_Desktop\\_App](https://github.com/JanithNanayakkaraSE0612/Layered-Architecture-Final-Project_Desktop_App)

## School Management System

2021 - 2021

- Description - It is a stand-alone application based on a School management system which was used to manage the payments and manage the student , Teachers all of this.
- Technologies Used - SQL Server , C#
